

May 9, 1985

To all AUCE members in Academic Pathology:

A shop steward division meeting was held on May 1, 1985 and it was decided that we need more representation in the area of shop stewards. We would like members to nominate one (or more) shop stewards in their various areas. I have enclosed a booklet from CUPE concerning the role of a steward and would be interested in hearing from you once you have nominated the individual(s) for your area.

CUPE will be offering education for stewards this fall and we hope to see more people taking the training. The training is not mandatory, but it is interesting.

Please contact me as soon as you have had a chance to discuss this amongst yourselves. If you wish, I can have coffee with you to discuss it.

Thank you.
