June 26.

L. H. Lederer
Manager
Wage Indemnity Claims
Medical Services Association
2025 West Broadway
Vancouver, B.C.

Dear Mr. Lederer:

Re: A.U.C.E. Sick Leave Study Committee

Thank you for your letter dated April 19, 1979, outlining various short-term Wage Indemnity Programs which may suit our membership.

Enclosed please find a chart which lists our members by sex, age, and wage group. The chart details only the full-time continuing employees (continuing part-time employees are listed but their salaries are not detailed, and hourly employees are not listed at all). We hope the information contained in the chart will be of some use to you in establishing a more complete picture of our membership. Such information as accumulated sick leave and rate of use of sick leave is not immediately available.

The Study Committee is presently looking at long term disability plans as well as short-term plans and would be interested in receiving from you details of available M.S.A. plans.

We look forward to hearing from you.

Sincerely,

Ian A. Spence
Vice President
