Dear Sir:

Are you a large consumer of coal? Soon you will order your coal supply. But before you do so please remember: German coal is being imported into Canada; it may be offered to you for sale.

Every dollar spent for German coal is another dollar to support the Nazi regime, which has substituted blood for brotherhood and madness for the peace hope of a harassed world.

War is an avowed part of the Nazi policy! Your money contributes to a war chest of over \$4,000,000,000 which is being spent in a single year by the Nazis in war-like preparations.

Demand the guarantee that hundreds of local consumers have obtained from their suppliers to the effect that the coal they buy is not German or has not been mixed with German coal.

Our Boycott Committee is now making a survey of the buying power of anti-Nazi consumers of coal. With this information we may be able to discourage dealers from importing German coal.

Will you please let us know by return mail the quality and quantity of coal that you use annually?

We thank you for your co-operation and remain,

Sincerely yours,

Lawrence Marks

Boycott

 Secretary, Boycott Committee
