

Patricia:

① I spoke with Nancy Thompson. She prefers not to grieve but is willing to do so if the other route doesn't work or if we think its the best route. Are we in trouble

about time limits?
~~(I had mentioned grieving early in January but she didn't want to at that point because she wanted data on air quality.)~~

② Gail Robertson informed me they are sticking to the coffee in the job description since it

is different from
being asked to bring
a cup of coffee to
someone. ~~###~~

Should we grieve?
Please call me to
discuss.

W.
